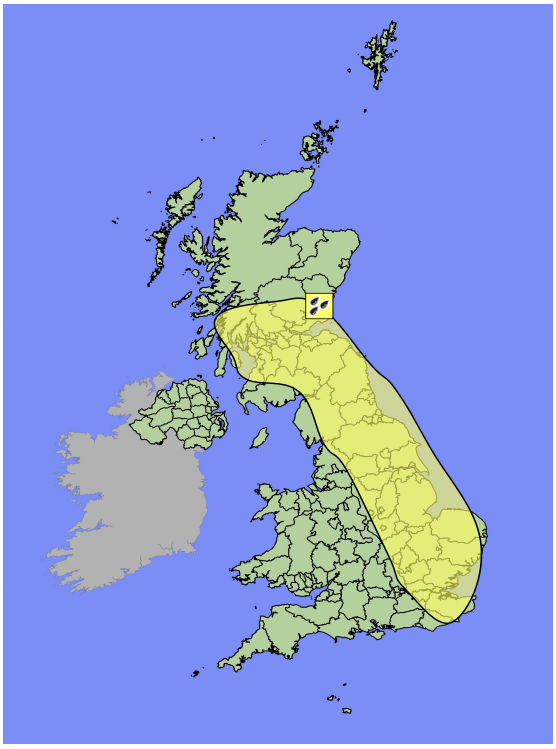
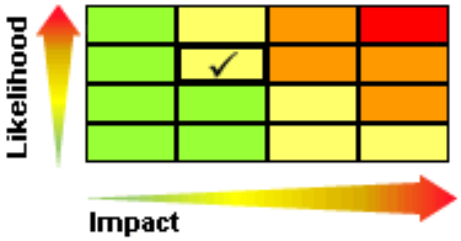
National Severe Weather Warning Service





Chief Forecasters Assessment
Where they occur, the heavy showers or thunderstorms will produce some large rainfall accumulations (typically 20 to 30 mm within 2 to 3 hours) . However, not all areas will see the showers and some areas will remain dry.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **00:05 on Thu, 05th Jul 2012** until **23:55 on Thu, 05th Jul 2012**

Scattered heavy showers or thunderstorms are likely at times on Thursday, particularly during the afternoon and evening with the potential for some heavy rainfall in places. The public should be aware that, following recent heavy rainfall, the ground remains saturated, and that further rainfall could lead to surface water flooding.
